Design Set 50

Ideal for Flat-TVs

SIGNO DS 50

quadral's new SIGNO DS 50 surround sound set amazes with an unexpectedly full sound from compactly dimensioned, slender cabinets featuring attractive styling and elegant, time-resistant surface finishing. The rear panel is fitted with a mount facility for wall mounting, but the stylish satellites also blend effortlessly into any home environment when mounted on the separately available SIGNO STATIV stand. The SIGNO satellites are equipped with a 25 mm fabric dome for finely detailed sonic delivery and a flat 11cm bass driver. Both chassis units are driven by diminutive but powerful neodymium magnets, which, in the case

of the subwoofers, are mounted in front of rather than behind the diaphragm in order to keep the cabinet's structural depth to a minimum.

The satellites are optimally complemented by a powerful 60/100 W active subwoofer for added pressure in the lowest frequencies.
